

ADAT: Summary of Source Title Listings Provided by Suppliers

Suppliers have been invited to supply all available information for each of the fields listed, but may leave fields blank where the relevant information is not known or otherwise unavailable. The following table shows the **percentage of fields for which ANY information has been provided** by each supplier.

Note that the percentages below refer to fields filled in (whether to state 'Yes', 'No', or other details) rather than left blank. **Stated percentages do not imply 'Yes' answers only**. EG. A percentage of 100% for the field 'Abstracts' means that a 'Yes' or 'No' answer was provided for 100% of titles in the given database, it does not mean that the given database has abstracts for 100% of titles. Conversely, results of 0% mean that the relevant data field was not filled in at all.
